Work Experience

TIIDELAB Fellowship Cohort 4 Lagos June 2022 – December 2022 Role & Achievements

I was able to hone my technical skills while I was a fellow by creating a platform for anonymous whistleblowing solutions. My team and I created two different versions of the platform. The version supports JavaScript, HTML5, CSS3, and ReactJS. During my stay at the fellowship, I got the chance to put my leadership skills to work as head of house because I was responsible for managing the daily activities of other members

Management System Space Abuja Front-end Developer January 2023 – Present

Role & Achievements

Worked in tandem with the team's lead engineer to ensure the creation of a pixel-perfect user interface with logical responses to give users a seamless experience while upholding excellent coding principles.

Primary Place of Assignment Odoguyan junior grammar school (Lagos State), NYSC June 2019 – June 2020

During my stay, I taught all arms of the junior secondary school basic science and technology, while adhering to good teaching practice.
